MESSAGE FROM JOE, MERCY'S LEADING EXPERT AND BUYER

Hi my name is Joe Sullivan, the product Manager at Mercy Wellness. I have been a part of Mercy a little over 4 years. It's been an honor to source the best products in the industry for our Mercy fam. Seeing the relief in peoples eye's that cannabis has brought them has changed my life and led to me being truly fulfilled with my job. On top of keeping the shelves stocked at Mercy I also get a chance to educate the masses on the radio with Mercy's show "Canna Help You?" on KSRO here in Sonoma County. The power of the plant is truly special and I look forward to continuing to share that love with all of you.

CIRCLE OF VIRTUES

Every morning the Mercy Wellness team huddles before we open the doors. It's a general housekeeping agenda to make sure our ducks are in a row for the day. My favorite part is when the team members are invited to give live examples of the circle of virtues in action. They share with each other experiences that are inspiring and meaningful to them. It helps remind us that there is a greater purpose to what we're doing; serving people who need and want cannabis to help themselves in some way. Thank you for giving us that purpose and this experience of serving you.

FEATURED PRODUCER:

Jetty Extracts

At **Jetty**, we believe the best cannabis is the purest cannabis. And that starts with the plant itself. It's why we work with small family farms that use organic processes. These are growers we have a relationship with. People we actually know by name. The strains we select? They're based on flavor and complexity – not simply on potency or what's easiest to find. The next step is extraction.

We developed a proprietary cryo distillation technique that lowers the boiling point to preserve more terpenes. Translation: we do less to the plant so we can extract more flavor from it.

GRASS ROOTS: CANNABIS FROM PROHIBITION TO PRESCRIPTION

Mercy Wellness celebrates and thanks Sonoma County's cannabis pioneers for their grassroots activism and perseverance. After 80 years of flawed political policy that created cannabis prohibition, the cannabis industry may now legitimately and openly contribute to Sonoma County's economy with jobs and taxes and contributions to nonprofits. A new journey begins. We welcome this opportunity to share it with you.

As a proud supporter and Top Sponsor of this one-of-a-kind showcase, we would like to invite you to celebrate the journey with the Museum of Sonoma County limited-time exhibit "Grass Roots: Cannabis from prohibition to prescription". Now through September 15th, 2019
