VOL. 1 ISSUE 8 SEPTEMBER 2019

MESSAGE FROM MERCY ABOUT VAPING

The US Center for Disease Control (CDC) issued warnings a few weeks ago on the health risks of vaporizing. Mercy Wellness was founded on the mission to run a socially responsible business with a primary focus on consumer needs. We also continually strive for safe access and are committed to your safety. We want you to be assured that the products we sell here are backed by the brands that produce them.

We have reached out to all of our manufacturers and asked them to make a declaration on the safety of their products, which you can find in our store and on our website. Mercy Wellness stands with hundreds of other compliant cannabis operators and encourages you to purchase products from CA legal retail dispensaries that require lab testing.

Drop us a line here. We'd love to know what you think.

CIRCLE OF VIRTUES

What's in a word?

Maintenance isn't the first word that comes to mind with virtues. Yet, without it, all of our systems and things that bring us so much pleasure and utility wouldn't exist.

Things wear down and out, processes no longer serve as people and things change. Everything (at different speeds) decays, devolves into chaos at some point and becomes useless.

Maintenance restores. It retards decay and is preventative of damage and preserves the life of things. Things need patching and restoration; systems need to improve for efficiency and to address needs that have changed. Mercy staff provides maintenance every day. Sweeping, mopping, dusting, wiping with disinfectant, cleaning windows, and picking up garbage from the parking lot.

Then there are the other unsung maintenance acts like bookkeeping, inventory management, IT and e-commerce, cleaning and sanitizing the packing equipment and space, HR and so forth.

Next time you're in the store hopefully you'll feel the virtuous presence of maintenance. That's part of the **Mercy Love.**
